

## Installation

### INSTALLATION INSTRUCTIONS:

**Warning:** Before installation, cleaning and maintenance, please switch OFF the power supply and switch to the "OFF" state

1. The luminaires must be installed by skilled electricians;
2. Please check the circuit wiring at the operating place before drilling, do not damage the wiring to prevent harm to personal safety;
4. Open the case. Find the parts and place them on a clean surface. Handle gently to prevent scratches and scratches
3. The wires connected to the transformer can not be welded, please use the junction box;
5. Install the panel inside the kit on top of the wall. Make sure it is secure
6. Assemble each fitting of the lamp body in order to form the lamp body and adjust the length of the chain and hang the lamp
8. Connect the main line of power supply and the main line of lamp body to each other by the correct pole with the terminal cap
9. Install a light source, turn on the power and make sure it works

### USAGE AND MAINTENANCE INSTRUCTIONS:

**Warning:** Before installation, cleaning and maintenance, please switch OFF the power supply and switch to the "OFF" state

1. Please make sure that the wires are firmly connected and in good contact. Before changing the bulb, please check whether it is conductive
2. After changing the bulb, please check if the bulb conducts well. If it is a screw bulb, tighten the bulb again after 20 minutes of light;
3. If you need a dimmer, you are advised to use a low-voltage dimmer
4. Do not change the bulb when the light is on
5. Note the minimum distance from the light source;
6. The luminaire can not be connected to additional bulbs to prevent Short Circuit and overload;
7. No heat insulating materials shall be placed on Luminaires;
8. This luminaire can only be installed in a dry room;
9. The rated power of the luminaire can not be exceeded when changing the light bulb;
10. electric conductors of different lamps can not touch each other;
11. When the lamp is cleaned, except crystal and glass can be cleaned with water (the soaking time can not exceed 5 minutes), other accessories can not be cleaned with water.
